

A semi-truck is shown in silhouette on the left side of the frame, parked on a road. The background features a vibrant sunset with a bright sun low on the horizon, casting a golden glow across the sky and the road. The sky transitions from a deep orange near the horizon to a pale blue at the top. The road stretches into the distance, with some distant structures visible on the horizon.

Air Dryer Cartridges

Aftermarket

MERITOR WABCO

Safety Strong. Efficiency Smart.

System Saver Air Dryer Cartridges

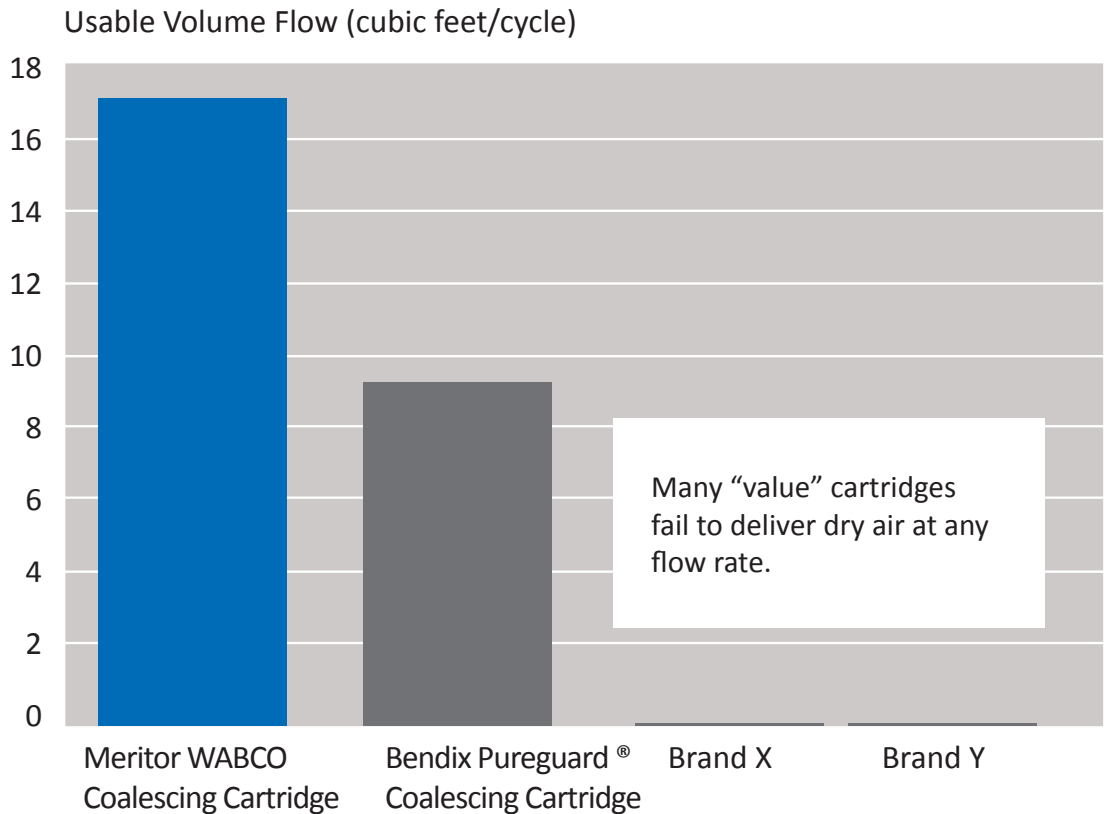

Our Cartridges are your Solution

Meritor WABCO provides the highest quality cartridges in the market. Our System Saver cartridges serve as a preventive measure to ensure that you get the highest performance for your dollar. Meritor WABCO's cartridge processes 79% more dry air when used with a Meritor WABCO dryer as opposed to some competitive cartridges.

Best Drying Performance

Looks aren't everything. Even though some cartridges may look alike, performance can vary drastically and Meritor WABCO cartridges outperform the competition! Many "value" cartridges fail to deliver dry air at any flow rate. Meritor WABCO's cartridges can be used with spin-on cartridge dryers, even competing spin-on-style air dryers. In fact, Meritor WABCO cartridges improve our competitors' drying performance up to 30%.

Performance Comparison of Cartridge Drying

Usable volume flow is a measure of how much air flow the cartridge can process and still maintain dry air (Dew Point Depression of 17°C).

* Testing run to SAE J2384

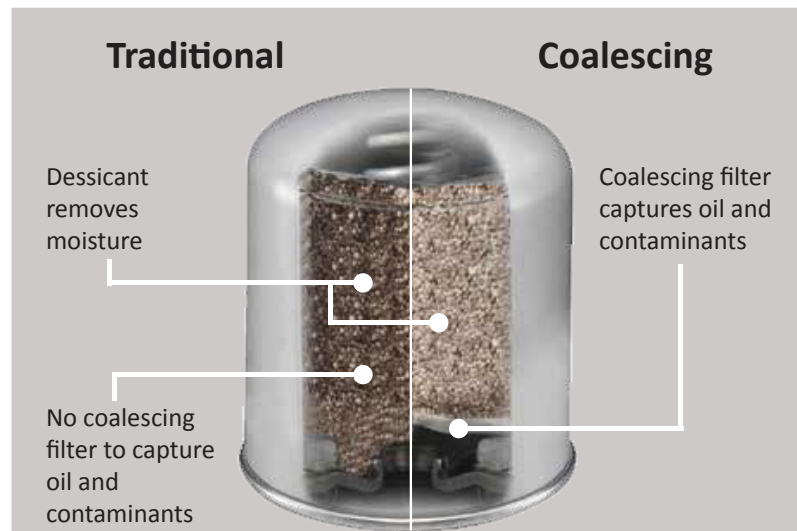

Traditional and Coalescing

Top-of-the-Line Options

Meritor WABCO works hard to keep your inventory costs down. Competing dryer manufacturers have numerous cartridges matching separate dryers. We keep it simple. Meritor WABCO offers two options, traditional and coalescing, which fit all of our dryers and even competing brands spin-on-style air dryers.

Meritor WABCO is the standard dryer and coalescing cartridge supplier for several OEM's.

Cleaner Air Means Proper Functioning

Features & Benefits

Traditional Cartridge:

- Maintains a reliable braking system
- Meritor WABCO has the highest drying performance cartridges in the after market
- Spin-on/spin-off design allows for quick and easy maintenance

Coalescing Cartridge:

- Reduces the amount of aerosol oil and particulate in air supply
- Reduced aerosol oil maintains factory performance levels of downstream valves by not allowing oil to clog or slow valves
- Extends the life of downstream valves by reducing the oil that can damage rubber seals
- Reduces vehicle downtime
- Reduced maintenance and repair costs
- Maintains system performance

Make a Smart Investment for the Long Haul

The Importance of clean dry air is increasing drastically as new vehicle systems such as automatic transmission and engine SCR need clean air for proper function and reduced downtime.

- Water in the system can cause severe damage resulting in repairs costing up to \$5000 or even more!
- Traditional cartridges work to remove moisture and larger particles or droplets
- Coalescing cartridges feature a filter system, which captures the smallest contaminants
- Coalescing cartridges reduce the amount of oil and particulate allowed downstream by 99%.

Ordering Information

Air Dryer	Cartridge	Part Number
1200 or 1200 Plus & Twin	Traditional	R950011
1200 or 1200 Plus & Twin	Coalescing	R950068
1800	Traditional	R950048
1800	Coalescing	R950069
