

**Enhanced Easy-Stop™
Trailer ABS Retrofit Kits**

MERITOR WABCO

Safety Strong. Efficiency Smart.

Meritor WABCO Enhanced Easy-Stop™ Trailer ABS

As the industry's recognized leader in trailer ABS, Meritor WABCO has created a series of retrofit kits to replace the previous Easy-Stop platform, to the current production Enhanced Easy-Stop platform. Easy Stop was installed on production built trailers between March 1997 and February 2001. Enhanced Easy-Stop incorporated current technology to address regulatory PLC requirements and has been installed from March 2001 to present.

Enhanced Easy-Stop ABS provides unparalleled trailer monitoring and control capabilities that fleets and owner-operators count on to positively impact their bottom line.

To determine the proper kit to order, find the existing Easy-Stop ECU/Valve part number that needs to be replaced. Then determine if you will pull the diagnostics from the tractor (power adapter equipped kits) or from the trailer (power/diagnostic adapter equipped kits).

Performance Advantages:

- Designed to offer flexibility in the replacement of the earlier Easy-Stop trailer ABS system platforms
- ECU and modulator valves can be serviced individually
- Does not require routing of new power cables to mid-ship junction box or wiring into the nose of the trailer

Features and Benefits:

- Retrofit kits contain Enhanced Easy-Stop ECU/Valve with a power cable adapter or power/diagnostic cable adapter
- Includes adapters required to plug into the existing Easy-Stop power cable and the new Enhanced Easy-Stop ECU/Valve
- Same sensors, sensor extension cables, clips, diagnostics, and blink codes as the Easy-Stop platform
- Additional support literature available; trailer ABS quick reference (TP-0173) and trailer ABS wall chart (TP-0692)
- Delivers real-time data communication between tractor and trailer systems equipped with Power Line Carrier (PLC) communications and InfoLink
- Service and support throughout North America by our industry-leading Customer Service team

Meritor WABCO Easy-Stop™ Trailer ABS Update Kit

Easy-Stop ECU/Valve#	Description	Power Adapter Retrofit Kit	Power/Diagnostic Adapter Retrofit Kit
472 500 021 0	2S/1M for Trailers	R955344	R955345
472 500 011 0	2S/1M for Dollies	R955322	R955323
472 500 012 0*	2S/1M, 2S/2M, 4S/2M	R955320	R955321
472 500 013 0	4S/3M	R955346	R955347

*** If a 472 500 012 0 ECU/Valve was used in 2S/1M applications, order a R955344 or R955345 kit. Kits contain an Enhanced Easy-Stop ECU/Valve and either a power cable adapter or power/diagnostic cable adapter.**

Additionally consider protecting the life of the new ECU/valve by utilization the in-line filter that protects the Trailer's ABS System by:

- Mounts at the control and service gladhands, part number S432 500 005 0
- Decreases contamination of the valves by (1) tractor air pass-through or (2) the gladhands remaining in the open position and allowing debris to enter on that basis
- By-pass feature if filter becomes full
- Filter can be cleaned with soap & water and reused
- S899 201 842 4 is a label to mount on the trailer
- S100 100 002 4 is an available tool to clean the filter

2S/1M

2S/2M

Meritor WABCO's Lift Axle system supports various trailer configurations. For more information, call the customer service team at 888-725-9355 or visit www.meritorwabco.com.
