

Meritor WABCO
System Saver 1200P

Meritor WABCO
1200P air dryer
provides nearly
TWICE the drying
performance as
Bendix ADIP.

MERITOR WABCO

Safety Strong. Efficiency Smart.

Key Features of SS1200P

- Makes use of external purge tank for regenerative air
- Integrates easily into tight packaging spaces
- Standard Dryer released for select Mack vehicles
- Designed with a lightweight design to improve fuel economy, high reliability and reduced maintenance
- The increased drying capacity protects downstream systems

System Saver 1200P vs. ADIP

	SS1200P	ADIP
Weight	9.1 lbs.	28.2 lbs.
Drying Capacity	370 L	200 L
Back Pressure	10.4 psi	14.6 psi
Purge Volume	5.0 L	2.5 L
Coalescing Filters	.05 g	.05 g

Standard Coalescing Cartridge

Coalescing cartridge captures oil and other contaminants

Make a SMART Investment for the Long Haul

The importance of clean dry air is increasing drastically as new vehicle systems, such as an automatic transmission or engine SCR, need clean air for proper function and reduced downtime.

- Coalescing cartridges feature a filter system, which captures the smallest contaminants
- Coalescing cartridges reduce the amount of oil and other contaminants allowed downstream by 99%

System Saver 1200P is the SMART choice

System Performance

How well does it dry air?

- System Saver Plus is best-in-class

Minimized Back Pressure

Low back pressure increases the product life span

- System Saver has lowest pressure readings
- One psi is equal to one gallon of fuel saved

Aerosol Protection

How well does the filter remove oil and contaminants?

- System Saver Plus is equal or better than the competition

Reduced Maintenance Costs

Is the air dryer designed to reduce overall maintenance costs, especially with an easy-to-change, less expensive cartridge?

- System Saver Plus cartridge is less expensive with an easy changeover and increased efficiency

Total Weight Savings

Lower weight impacts fuel savings

- System Saver P is 19-20 lbs. lighter than competition

System Saver™ 1200P
