

Meritor WABCO Commemorates 20 Years of Aftermarket Support

TROY, Mich. (Jan. 19, 2010) – Meritor WABCO Vehicle Control Systems, a leading supplier of commercial vehicle braking and active safety systems, marked its 20th anniversary by emphasizing the role of its aftermarket organization in the company's growth. "Our complete customer support team in Hebron, Ky., in Florence, Ky., and in district managers across the country makes the world's most advanced vehicle control systems easier to understand, use, and service," said Jon Morrison, president of Meritor WABCO Vehicle Control Systems. "They're integral to our customers' and our company's success."

Meritor WABCO's aftermarket business has grown five percent each year since 1990 and has shipped over 8.1 million units to date. Morrison attributes the growth to several elements:

Diverse product line: In 1990, antilock brake components accounted for 100 percent of Meritor WABCO's aftermarket sales. Today that figure is roughly 50 percent as the company has expanded its aftermarket catalog to include a range of air dryers, compressors, valves, and other parts.

Quality parts: Meritor WABCO replacement parts meet internationally recognized quality standards, and come with a one-year warranty. Aftermarket distributors know that the component inside a Meritor WABCO box provides genuine-part form, fit, and function.

Diagnostic support: Meritor WABCO service tools like the PLC DataMaster diagnostic tool and TOOLBOX™ software make it easy to retrieve and manage information about ABS performance and help technicians be more productive.

Seamless fulfillment: Xpresswayplus.com is part of a suite of electronic ordering and fulfillment services—including EDI and vendor managed inventory (VMI). It allows up-to-date views on product availability, pricing, and delivery status and gives dealers and independent shops alike access to general service and repair information.

Training: Customers and distributors have access to a growing catalog of online tutorials about braking and safety systems, as well as webinars and intensive by-appointment onsite instruction. The emphasis is on flexible, effective training that fits the customer's schedule and needs.

Field support: Meritor WABCO field technicians provide world-class expertise and responsiveness. Some examples:

Assisted Smith Transport in Roaring Springs, Pa., in the retrofit nearly 200 van trailers with Enhanced Easy-Stop ABS after the original equipment antilock braking system was discontinued by another supplier. Installing Meritor WABCO ABS ensured the availability of replacement parts and improved the trailers' resale value.

Trained technicians at Mountaire Farms, a poultry producer in Millsboro, Del., to retrofit Meritor WABCO RSSplus™ on more than 150 trailers in less than two months. RSSPlus™ is the only retrofittable electronic stability control system for trailers with air ride or spring ride suspensions. The company helped Mountaire Farms reduce vehicle accidents using its existing trailer fleet.

"There are many instances of this type of commitment from our field technicians," said Morrison. "They exemplify the value of using Meritor WABCO components and replacement parts."

Meritor WABCO Products & Systems

Pneumatic ABS

Trailer ABS (Easy-Stop™ and Enhanced Easy-Stop™ with PLC)

SmartTrac™ stability control (ESC and RSC) and RSSPlus™

OnGuard™ collision safety system

Air compressors, air dryers, and brake control valves

Hydraulic ABS

Hydraulic Power Brake (HPB)

Electronic leveling valves for tractors and trailers

Electronically Controlled Air Suspension (ECAS) for buses

TOOLBOX™ Service and Support Software

Meritor WABCO1 is a joint venture of ArvinMeritor, (NYSE:ARM) and the WABCO Automotive Control Systems, Inc., a wholly-owned subsidiary of WABCO Holdings, Inc.

WABCO Vehicle Control Systems (NYSE:WBC) is a leading supplier of safety and control systems for commercial vehicles. For over 140 years, WABCO has pioneered breakthrough electronic, mechanical and mechatronic technologies for braking, stability, and transmission automation systems supplied to the world's leading commercial truck, trailer, and bus manufacturers. With sales of \$2.6 billion in 2008, WABCO is headquartered in Brussels, Belgium. For more information, visit www.wabco-auto.com.

ArvinMeritor, Inc. is a premier global supplier of a broad range of integrated systems, modules and components to original equipment manufacturers and the aftermarket for the transportation and industrial sectors. The company serves commercial truck, trailer and specialty original equipment manufacturers and certain aftermarkets, and light vehicle manufacturers. ArvinMeritor marked its centennial anniversary in 2009, celebrating a long history of 'forward thinking.' ArvinMeritor common stock is traded on the New York Stock Exchange under the ticker symbol ARM. For important information about the company, visit arvinmeritor.com.
